TRIAD TECHNOLOGIES

Automation Lines

800.420.8575 | automation.sales@triadtechnologies.com

ADVANTECH	Industrial PCs, HMIs, edge computing devices, IIOT devices	ANFIELD INDUSTRIES INC.	Pressure, temperature, level , vacuum, switches, pressure transducers, ultrasonic level sensors
antaira®	Industrial-grade Ethernet switches and wireless communication networks	Baumer Passion for Sensors	Sensor technology, encoders, measuring instruments, and components for automated image processing
binder	Circular connectors and molded cordsets	BBC BIRCHER Smart Access	Security systems, sensors for automatic gates and doors, safety mats, contact strips
CONTRINEX	Sensors: proximity, photoelectric, ultrasonic, range SS proximity, IO link smart sensors	CREATIVE MOTION CONTROL	High force electric actuators and roller screw systems
DELTA MOTION	Hydraulic and electric motion controllers	DIEQUA Corporation	Gearbox, precision gearhead, rotary actuators, couplings, line shafts
DONGAN TRANSFORMERS	Standard, specialty, and custom transformers	EPC ENCODER PRODUCTS COMPANY	Motion feedback devices; incremental, absolute linear, and rotary encoders
EUCHNER	Safety switches, interlock switches, safety systems, RFID, pendant stations	EXM	Industrial electrical enclosures and cabinets
FATH	Machine hardware, lean manufacturing components and workstation accessories	finder SWITCH TO THE FUTURE	Industrial relay, lighting, and power solutions
FlexiBowl by ars	Flexible parts feeding system for automated production lines using industrial robots or cobots	HAMMOND MANUFACTURING™	Leading manufacturer of industrial enclosures, electronic enclosures, racks, and rack cabinets
HIRSCHMANN A BELDEN BRAND	Industrial networking: ethernet switches, firewalls, remote machine access	HIWIN Linear Motion Products & Technology	Linear guides, actuators, and ball screws
IDEM SAFETY Making Industry Safer	Machine safety switches	INDEECO HEATING SOLUTIONS	Electric heating and thermal management technologies
LS ELECTRIC	Molded case circuit breakers, mini circuit breakers, contactors, VFDs, HMIs	lumbergautomation A BELDEN BRAND	Sensor cabling systems, quick disconnect cables, IO link master blocks, IO junction blocks, ethernet cables, DIN connectors
MENCOM CORPORATION	Molded quick disconnect cables, panel interface connectors, sensor junction blocks, ethernet switches	MURR	Quick disconnect connectors, distribution blocks, power supplies, bus interface systems, panel interfaces
NOSHOK	Pressure, level, temperature, and force measurement instruments	Parker	Motion products: servo drives, motors, actuators; Pneumatic products: valves, cylinders, manifolds
Pfannenberg ELECTRO-TECHNOLOGY FOR INDUSTRY	Global manufacturer of thermal management, liquid cooling solutions and signaling	PILZ	Safe automation technology: sensors, relays, small controllers, drive technology, control devices, software, network components
pizzato	Position switches, microswitches, safety devices, HMI devices	pyromation inc beyond measure	Thermocouples, RTDs, PT100s, thermowells

Territorial restrictions for some products may apply.

PULS	DIN rail power supplies, field power supplies, redundant power supplies, uninterruptible power supplies	RECHNER SENSORS	Capacitive sensing technologies for industrial automation and level control
ROBOTUNITS	Modular automation systems: structural extrusion, conveyance, and linear motion	SCHLEGEL ELEKTROKONTAKT	Pushbutton and Switches
SCHMALZ	Vacuum gripping components, pre-configured grippers, EOAT design and functionality testing	SCHMERSAL Safe solutions for your industry	Safety interlock switches and relays, safety limit switches, safety magnetic door interlocks
SCHUNK	Pneumatic grippers, magnetic grippers, electric grippers	SENSOPART	Vision: smart cameras with object detection, barcode readers, robotics; Sensing technology: optical, ultrasonic, inductive
SICK	Sensors: vision, safety scanner, radar, non-contact motion, light curtains, bar code readers, encoders	socomec Innovative Power Solutions	Fused and non-fused disconnect switches, power meters, transfer switches
sprecher+schuh	Motor control, contractors, starters, push buttons, disconnects, soft starts, signaling devices, terminal blocks	STAHLIN A ROBROY Brand	Non-metallic industrial electrical enclosures
Swivellink INTELLIGENTLY DESIGNED	Mounting solutions, pedestals, bases, carts, parts feeders	TECHTOP electric motors	Aluminum and cast iron frame IEC motors
TR electronic	Linear transducers, encoders, sensors, machine lighting	TRI-TRONICS Smart Sensing Solutions Since 1954	Sensors: photoelectric, UV, clear material, color, label, fiber optic
UNITRONICS	HMI/PLC and networking all in one; integrated PLCs, servo, VFDs, wireless networking, cloud interface	WERMA	Intelligent signaling technology: stacklights, beacons, sirens, wireless signaling, call and signal systems
WHITMAN CONTROLS	Custom-engineered pressure, vacuum, level, and temperature switches and sensors	wieland	Terminal blocks, heavy duty connectors, relay interface modules, safety relays, power supplies

Territorial restrictions for some products may apply.

TRIAD TECHNOLOGIES Automation Services & Capabilities

Whether your industry is facing a shortage of workers or a need for faster production, automation is a great step in keeping your business moving. Triad offers a wide variety of services to support automation, including:

T-Slot Aluminum Extrusion

Design, fabrication and onsite installation of t-slot aluminum extrusion

Automation Lab

Qualification of products and system solutions for applications involving robotics, motion control, and vision sensor technologies

Vendor Managed Inventory

Services to keep your parts in stock when you need them

Triad 2026 AUT 0100
