TRIAD TECHNOLOGIES

SEALS FOR CHEMICAL APPLICATIONS

We carry a comprehensive range of high-performance sealing solutions suited to withstand the corrosive media, extreme temperatures, and demanding pressures often encountered in chemical processing.

Essential Seal Solutions

- Gaskets
- O-Rings
- C-Rings/E-Rings
- Braided Rope Packaging
- Manway Gaskets
- Mechanical Seals
- Rotary Seals (PTFE Lip Seals)

Reliable Materials

- Silicone (MVQ)
- Flexible Graphite/PTFE
- FEP Encapsulated Elastomers
- PTFE
- FFKM
- FKM
- EPDM

Ensure Personnel Safety & Regulatory Compliance

- Significantly reduce the release of hazardous VOCs and other pollutants, helping you meet stringent environmental regulations.
- Safeguard personnel from chemical exposure and mitigate the risk of catastrophic incidents.
- Meet critical industry standards and regulations, including those from OSHA, EPA, and other relevant authorities.
- Prevent chemical products from escaping, leading to increased yield and reduced waste, directly impacting your bottom line.
